### MESSAGE FROM DEAN

*Assalamualaikum and warm greetings,*

*Congratulations to all new students!*

I am very pleased to welcome all of you to the Faculty of Business and Economics (FPE).

You are now embarking on another very important and exciting chapter in your life. At FPE we aim to provide quality education and training to ensure our students are equipped with appropriate skills, aptitudes, and characteristics to prepare the students to be successful professionals in the future and assume leading roles in the government, business, and community. We put strong emphasis on excellent teaching, innovative research, and quality publication as well as industry collaboration. We are ranked amongst the top business schools in Asia and proud to be in the leading position in Malaysia. Our programmes are reviewed and revised on regular basis to ensure the programme are continuous improved or in line with the latest developments in the industry as well as achieving the gold standards set by the international accreditation and professional bodies. International accreditations and recognitions signify that our programmes are of top quality and recognized internationally.

We are the first public business school in Malaysia to receive an international accreditation from The Association of MBAs (AMBA), UK, the accreditation we maintain since 2007. In February 2016, we achieved another very important milestone, full accreditation for the prestigious accreditation body for business school, the Association to Advance Collegiate Schools of Business (AACSB) and we are reaccredited in 2022. In addition, we are currently working towards accreditation by European Quality Improvement System (EQUIS). We are building on these hallmarks of excellence by working towards our ambition to become among the leading global business schools.

We are committed in improving our facilities to provide conducive and comfortable learning environment to our students and staff. Our well qualified lecturers are dedicated to deliver the best in their teaching and at the same time actively engaged in pursuing scholarly research in a myriad of areas from accounting, finance, marketing strategies, organizational behaviour, management information systems, operations management, economics, applied statistics, public administration, public policy and development studies. We are confident that you would benefit from our global setting as our class is made up of students from various profiles, professional backgrounds, and nationalities.

The programme handbooks and the faculty website provide more information about the programmes and the faculty. Please refer to your programme handbook for information on programme structure, study plan, synopsis of various courses that are offered, academic standards and various facilities that are available in the FPE as well as information on all of our academic staff. I wish you all the best in your studies and I hope you enjoy your UM life to the fullest.

Solve organizational issues using related accounting concepts, principles and techniques. 3. Demonstrate practical skills in related accounting disciplines. 4. Work in a diverse team. 5. Communicate effectively in written and oral forms with various stakeholders. 6. Implement solutions to accounting related problems using digital technologies. 7. Implement solutions to accounting-related problems using quantitative skills. 8. Demonstrate autonomy and leadership skills in managing responsibilities. 9. Form self-directed life-long learning and entrepreneurial skills. 10. Conform to accountant's ethical and professional conduct.		

#### PROFESSIONAL RECOGNITION

UM's Bachelor of Accounting programme is recognised both nationally and internationally. The programme is recognised under Schedule 1 Accountants Act 1967. Graduates of this programme are eligible to register as members of the Malaysian Institute of Accountants (MIA), subject to three years practical accounting experience, as stipulated in Part IV of the Accountants Act 1967.

In addition, the programme is also recognised by other international professional accounting bodies. BAcc graduates from UM may get maximum exemptions from the following bodies:

Institute of Chartered Accountants in England and Wales [ICAEW]

Certified Practising Accountants (Australia)  
[CPA (Australia)]

The Chartered Institute of Management Accountants [CIMA]

The Chartered Institute of Public Finance and Accountancy [CIPFA]

Malaysian Institute of Chartered Secretaries and Administrators [MAICSA]

Advance Collegiate Schools of Business (AACSB)

Bachelor of Accounting is recognised by the Association to Advance Collegiate Schools of Business (AACSB), a world-class body that recognises institutions that meet the strict quality standards. This recognition is accepted by well-known employers and other universities around the world. As of August 18, 2020, only 876 institutions from around the world have received AACSB recognition.

For students wishing to embark on a professional pathway with MICPA for CPA (Malaysia) qualifications, they are entitled to apply for Students Sponsorship Programme (SSP) by MICPA. Starting from this year, the engagement sessions with MICPA that pertain to the information on SSP, are held virtually - i.e. online.

The University had a Memorandum of Understanding (MOU) with MICPA on 11th March 2020, whereby under this memorandum the University shall be given the authority to conduct the examination for all courses in ASE (except for capstone) internally. This project is still in its infancy stage subsumed under the Special Working Group (SWG) project. The trial phase is expected to run for a period of two (2) years.

Accordingly, it is advised that if students wish to take up the MICPA qualification path, then they should consider taking the elective CIA3009 Advanced Taxation. Therefore, since the SWG project has just started, it is worthwhile for students to take up the Advanced Taxation elective, as they prepare for their MICPA Advanced Stage Examination. Graduates who pass MICPA examinations, shall also be granted with qualifications from Chartered Accountants Australia and New Zealand (CAANZ) due to mutual agreement between these two professional bodies.

The ACCA Accelerate programme is a special arrangement between ACCA and the University, which gives students the opportunity to register and start preparing professional level exams (Strategic Professional Examinations) with ACCA prior to graduation. These students will be professionally qualified accountants upon completion of their degree and ACCA.

UM is also in collaboration with ICAEW to offer the ICAEW qualification. Students are exempted from eight (8) ICAEW papers when they pass all relevant courses of BACC that qualify for ICAEW credit for prior learning (CPL). The students are also eligible to take four (4) Strategic Credit papers that will be offered in October 2020 (date of commencement). The students need to gain 55% for the final examination portion only in the BACC courses to qualify for these strategic credits.

Further, the students can take the remaining three (3) ICAEW papers after they graduate from the BACC program. Alternatively, UM is in collaboration with ICAEW and Sunway TES that also offers the ICAEW qualification via the Structured Internship Programme. Capable students who are selected are also exempted from eight ICAEW papers. The students are allowed to sit for some of the remaining papers in the third and final year of their programme.

For students who wish to embark on a professional pathway with CIMA, the arrangement between UM and CIMA allows students to be exempted from ten (10) CIMA papers when they pass all BAcc core courses. In June 2021, UM has signed an MOU with CIMA that allows our students to join the Finance Leadership Programme (FLP) Programme during their study in UM and learn independently via online platforms to obtain CIMA qualification. Under the FLP programme, students are only required to pass three main case study exams (operational, management and strategic) and are able to obtain various certificates from CIMA.

UM and CPA (Australia) have entered into an agreement to allow fourth year students to take selected segments of the CPA programme. The students need to complete the relevant courses of BAcc to gain full exemption of the foundation level of CPA programme. The BAcc graduates from UM may apply to CPA to join as an associate (ASA) member, before commencing the professional papers. This will allow the students to get a head start in their professional accounting career.

MAICSA is the premier professional body for company secretaries and governance professionals. BAcc graduates from UM are eligible to apply for exemptions of certain modules of The Chartered Governance Qualifying Programme (CGQP).

CIPFA is the leading accountancy body for the public services providing education and training in accountancy and financial management. UM BAcc graduates are entitled to exemptions for certain papers of CIPFA.

UM is the first University in Malaysia to be accepted into the Internal Auditing Education Partnership (IAEP) programme by the Institute of Internal Auditors (IIA) Inc. USA. This programme was developed by IIA for the purpose of promoting and assisting educators who offer an internal audit education programme. The IAEP programme prepares students with the skills and knowledge to help them to conduct basic internal audits immediately upon hires and also provides them with a foundation to begin preparing for the CIA® examination. Other benefits offered include free books, research collaboration and assistance, and student internships at member organisations.

#### **PROGRAMME STRUCTURE**

The BAAcc programme structure is in accordance with the proposal from the 'Jawatankuasa Halatuju 3 Program Perakaunan Institusi Pengajian Tinggi Awam (IPTA)'. The formation of the curriculum for the accounting programme has taken into consideration the guidelines given by the International Education Standards (IES) produced by the International Federation of Accountants. The programme structure has been approved by all principal stakeholders including the Ministry of Higher Education, Malaysia and the Malaysian Institute of Accountants (MIA). The BAAcc programme structure encompasses five main components:

- Accounting, financial and other related knowledge
- Organisation and business knowledge
- Information technology

- Communication skills, industrial exposure and integrated case studies
- Knowledge outside of the accounting field through elective courses

Special sessions are conducted by the Faculty to help students to master the use of accounting and auditing software; namely UBS and AXP. In addition, students are required to attend entrepreneurship and soft skills workshops. The workshops are conducted by the Centre for the Initiation of Talent and Industrial Training (CITra) and the Faculty.

Students will have successfully completed the BAcc Programme once they have obtained a Cumulative Grade Point Average (CGPA) of 2.0 and above and passed (with at least a C grade) all required courses, which consist of the following components:
